Air Canada TMOS 2019 Bargaining Summary

July 25, 2022

Per Bulletin No. 029, issued July 20, 2022 by District Lodge 140, the Air Canada TMOS Negotiations Committee released the 2019 bargaining summary.

Since this is a rather large document, as it provides full details of what was negotiated (sixty-six pages in length), the summary is attached to said bulletin. Members can access it from the union website by clicking on the Bulletin 029 link and scrolling down to the bottom, where the summary can be found on the left side of the page. I encourage all members to take the time to look over the document to discover what was achieved.
